

Yes, your
teeth are
strong. But
it's not white.

I weave while
chewing betel
so that my
teeth are
strong.

Ulos woven fabric products in Huta Raja Village are advantages that provide economic benefits for the community.

The regeneration of weavers provides sustainable benefits for the people in Huta Raja village. Ulos produced in the village of Huta Raja are the result of handicrafts from residents who are done using a loom. The ability to weave is passed down from generation to generation and carried out from a young age. Several looms and yarn spinners for hanging clothes are a pleasant sight in this Huta Raja village.
